

November 14, 2008

Since 2001, Best Windows and Doors has been beautifying homes in Southern California with top-of-the-line home improvement projects. The economy has had a direct negative impact on our ability to operate a successful business. This reality, in addition to other circumstances outside of our control, has forced us to close our doors permanently.

Any jobs not currently being installed can not be finished, and any responsibilities or prior commitments that have been made cannot be fulfilled. I apologize for any inconveniences and financial difficulties this may cause you. Please know that I completely liquidated my personal assets in order to help this business survive, but was still unsuccessful.

We are currently pursuing bankruptcy protection and, since it is unlawful to contact a business in our situation, please contact our attorney, Daniel J. Winfree, at 1010 Second Avenue, Suite 1015, San Diego, CA 92101, or by phone 619-235-6060 with any questions.

Sincerely,

Mike Chavez
