

PROPOSALS COMPARISON

By filling out the table below, you should get an accurate comparison of the performance and cost of the systems proposed. It is very important that the CSI Rebate, CEC-AC rating, and PV Annual kWh are taken from the CSI-EPBB Calculation Sheet.

		(Installer 1)	(Installer 2)	(Installer 3)	(Installer 4)	(Installer 5)
System Description	PV Module Output					
	# PV modules					
	Inverter					
	# Inverters					
System Cost	Hardware Total (Taxable)					
	Installation Total (Non-taxable)					
	Miscellaneous Total					
	Sales Tax					
	Total Cost					
	CSI Rebate (from CSI-EPBB)					
	Fed. Tax Credit (max \$2000)					
	Net Cost					
System Performance	CEC-AC Rating (from CSI-EPBB)					
	PV Annual kWh (from CSI-EPBB)					
Other Factors	Warranty on panels (# of years)					
	Potential Financing Options					
Installation	Estimated time of installation completion
